Our meeting on Friday, July 15, 2016

Honorable Federal Councillor,

Having arrived at your private residence with the aim of delivering a copy of my circular letter dated July 14, 2016 into your mailbox, suddenly you and your husband opened the door. All of us were quite surprised, and I forgot to present my-self. However, you did recognize me and replied to my greetings very distantly. Obviously, you were not amused to see me.

Following a short discussion with your husband, he told me that you did not appreciate to be contacted at your private address, and that other persons approached you at your home. «My intention was to ensure that the Federal Councillor Sommaruga cannot pretend one day, not to have known, what was going on». I replied, as a matter of fact, that the Supreme Federal Court is producing two dozen judiciary victims per working day, and some of them submitting subsequently their complaints at the Federal Department of Justice and Police. They are brushed up with the hint of the separation of powers, and get the wise advice to address themselves to their executioners. The keenest protestors dare to come to the private residence of the Minister of Justice. This is pure logic. It is the symptom of the judicial dysfunctioning.

Mrs. Federal Councillor, I urge you to seriously consider such claims as an opportunity for demonstrating you to assume your responsibility. Claims ought to be dealt with as a priority.

I had the opportunity to inform you about the unbearable sufferance of François Légeret, an innocent man, jailed since 10 ½ years who had been my work colleague in the high security prison of Bochuz/Orbe.

On April 18, 2016, during a public debate, I expressed to the Attorney General of Vaud, Eric Cottier my gratefulness to have put me in a position to study the prison system from the inside. This allowed me to perfect my knowledge of judicial dysfunctioning. The judiciary tyrants did expropriate me completely, and they condemned me to 4 years in prison for having criticised them. However, my fortune today consists in a rich knowledge of the illegal manoeuvres and tricks of the judiciary apparatus. I offer my know how to the Federal Council, since I foresee perfectly the royal way out of this crises.

I did inform you about the widely spread corruption inside the Swiss judiciary apparatus. Indeed, you are now aware that no Federal Judge is earning honestly their salary, since they are not performing the expected work duties: they liquidate grievances of their victims, claiming that the content of their judgement does not match with reality with the childishly stupid formula: «these grievances are appellatory, hence inadmissible». - You have as well been briefed that the European Court of Human Right is not even reading 98 % of the incoming complaints. Evidence: the text module of half a page, dated March 28, 2013 concerning the appeal of François Légeret. See enclosed copy.

*By registered mail of June 17, 2016, each one of the 17 mainly guilty magistrates, responsible for the tragedy of François Légeret has received a copy of Secretan's book (L'affaire Légeret – Un assassin imaginaire). Consequently, they have been rendered attentive about their «mistake». None has made amends. They are too coward to do so. «The mistake» became thus an intentional judiciary fraud – an abuse of authority punishable under criminal law and to be pursued ex officio. It is the duty of the Federal Council to grant the rules of the Constitutional State! The corporation of the judiciary power is obviously unable to recognize its failure. **This is a formal denunciation.***

If you refuse to discuss with me, you have the option to get informed by the journalist Jacques Secretan, and the girlfriend of François Légeret. This man has undergone the greatest injustice in our country, due to pure stupidity; this has to be stopped immediatly!

Respectfully yours,

Gerhard Ulrich

Enclosure: Text module of half a page = the decision of the European Court of Human Rights of March 28, 2013 concerning François Légeret.
