***Petition for a late prosecution of the criminal fire at Nonfoux of  
August 31<sup>st</sup>, 2002***

*Mrs. President,*

*Ladies and Gentlemen Members of Parliament,*

*You have been informed by circular letter about the ins and outs of this  
heinous crime, of which Jakob GUTKNECHT is the victim. See :*

*For your comfort, I am enclosing a printed copy of this second document.  
Of course, I can furnish as well the pieces of evidence. However, they are  
anyway freely available, published on the mentioned Web Sites.*

*The farm of GUTKNECHT fell prey to the fire, and your judiciary apparatus  
infested by Freemasonry did condemn him wrongly for an offence which he  
had not committed. His insurance compensations were subsequently heavily  
reduced by the cantonal Fire Insurance ECA.*

*The real offender has been gratified with the construction of a castle. See*

[www.swisscastles.ch/aviation/Vaud/aaville3/nonfoux.html](http://www.swisscastles.ch/aviation/Vaud/aaville3/nonfoux.html)

*By contrast, the associates of the hidden power did cause the material ruine of GUTKNECHT. Today, he is living in conditions of poverty as his Swiss fellow citizens cannot even imagine. In addition, his health has been very seriously affected by a smoke intoxication, when he was saving his cattle from the burning cowhouse.*

*GUTKNECHT is a victim of State Banditry. He has been cheated by the two inspectors of the criminal police VD Daniel KOLLY and the IPA FIAUX, who did intentionally investigate in a one way direction, forcing the self-ignition of the hay to be the cause of the fire. It was indeed a heinous criminal arson committed by **Claude BUDRY, presently living at the chemin du Jura 36, 1470 Estavayer-le-Lac.***

*KOLLY is the self-proclaimed fire expert of the criminal police VD. This is absolutely wrong : a serious investigation will unveil that KOLLY does not have the slightest clue about hay fermentation. That is one of the heavy lies among many others contained in this judiciary file. See chapter III of the publication [www.worldcorruption.info/eng/gutknecht.htm](http://www.worldcorruption.info/eng/gutknecht.htm)*

*You will agree that it is an unacceptable scandal that a hidden Oligarchy may destroy the destiny of a citizen who has never caused any problem to the society, and all that with the consent of the Vaudois State Councillors.*

*Herewith I address to you this Petition with the request to be invited together with Jakob and his brother Johann GUTKNECHT to present the case orally to your Commission. The objective is the constitution of a parliamentary Inquiry Commission of the cantonal Parliament, to investigate concerning the alleged experience of the inspectors of the criminal police Daniel KOLLY and the IPA FIAUX with regard to fires and particularly self-ignition of hay. This Commission will furthermore study the illegal maneuvers of those two agents. It is absolutely certain that they did cheat in many other occasions. The judiciary machine has got packed generally. This Petition deserves thus to be treated with utmost priority, since it deals with a subject of essential public interest.*

*Looking forward to be invited for a hearing, I remain, Ladies and Gentlemen Members of Parliament sincerely yours*

*Gerhard Ulrich*
