***Request to issue international arrest warrants against
Eric COTTIER, Attorney General of the Canton of Vaud and
Gabriel MORET, Vaudois prosecutor in Yverdon-les-Bains***

Ladies and Gentlemen,

*On 31.08.2002 the Freemason Claude BUDRY set fire to his farm at Nonfoux VD and the neighboring facilities of the farmer Jakob GUTKNECHT, with the aim to fraud the insurances. He succeeded indeed with the complicity of his masonic brothers who are controlling the Vaudois judiciary apparatus. They smashed the innocent GUTKNECHT, condemning him with malice wrongfully for fire by negligence, whereas unanimity is prevailing among experts that no self-ignition of his hay had occurred. BUDRY owns today a **résidence of his dreams**, while GUTKNECHT's health is ruined and he is living in extreme poverty. I have denounced this crime/masonic plot publicly on Nov. 4, 2016 by flyers and on the Web: www.worldcorruption.info/eng/gutknecht.htm*

Nobody filed a complaint, for good reasons. All evidences of this hideous crime can be found there, showing all documents.

PS: The Vaudois Magistrates who are loyal to the Federal Constitution can demonstrate their engagement for the Constitutional State by transmitting this denunciation to the competent authorities, and let it know publically.

*Thereafter, I spread **in the public interest** 10'000 leaflets throughout the canton of Vaud, containing a petition to the cantonal Parliament:*

*The criminal incendiary BUDRY filed a penal complaint on January 20, 2017 for infringement of his «honor», and the «prosecutor» MORET, reporting to **COTTIER** being the stage manager of corruption in the Canton of Vaud, did condemn me subsequently to 100 day fines on February 24, 2017, since they are caught by their masonic oath, sworn on their lives, hence violating the Federal Constitution (equality, good faith, protection against arbitrariness). In his rag paper (*enclosure*) MORET is quoting my past as a political prisoner of Switzerland, since I am criticizing our Magistrates and the hopelessly degenerated judiciary system since 17 years, well known to be non-violent. Concerning the values of those condemnations, see*

www.worldcorruption.info/index_htm_files/gu_sauterel-e.pdf

*Of course, MORET did not carry out an exculpatory investigation, since he does not indicate anywhere the file **GUTKNECHT**, albeit mentioned by the flyer of 11.01.17. And why BUDRY did not file a complaint because of my message producing the visual evidences of his hideous crime? See:*

www.worldcorruption.info/index_htm_files/gu_2017-02-07_petitionVD-e.pdf

*Let's point out that the Attorney General VD **COTTIER** is as well the architect of 2 judiciary crimes, i.e. the condemnations of François LÉGERET (L'affaire Légeret – Un assassin imaginaire, Jacques SECRETAN, editor Mon Village 2016) and of the French Laurent SÉGALAT (5 books proving his innocence available!) based on nothing. On top of all, **COTTIER** is sponsoring corruption:*

Neighboring France, and particularly the French frontier workers are thus exposed to a Vaudois judiciary apparatus, metamorphosed into a criminal organization, covered by their superior instances up to the European Court for Human Rights.

I request the French authorities, suffering as well under the infiltration of the secret societies in their republican institutions, to issue international arrest warrants against **Eric COTTIER** and Gabriel MORET for being members of a criminal organization. They shall be put into pretrial custody, in case they should attempt to fly on the territory of the European Union.

Truly yours

Gerhard ULRICH
