Accomplices of corruption

To you, Gilles MARCHAND,

A Swiss journalist accused me recently to be of bad faith and doubted about my credibility. What is fact? Let us look at some numbers: Ten of my videos are hosted on the portal www.youtube.com/user/Rastattt

And here the numbers of views of the most successful movie to date –

The European Court of Human Rights.....a Lodge of Cardsharppers?

Other statistics:

My complaint against Switzerland at the UN for illegal censorship of the Internet of [January 27, 2018](#) has been sent to > 5'000 e-mail addresses. Only a professor in Geneva requested to be removed from my list of recipients.

The quality of reactions yielded on Facebook is excellent as well.

Consequently, I do not have to evidence my credibility any longer. The accusations of the said journalists are explainable: jealous of my freedom of expression, and not able to admit to produce cowardly Swiss mainstream journalism on glossy paper, he is projecting his own behaviour on me.

It is just a question of time for having the public opinion to understand that you are bullshitting about Fake News on the Internet, for dis-simulating that you are filtering and suppressing news yourself in bad faith. You are dis-informing. Since June 2016 I inform by e-mail about 300 journalists twice or three times a month about the dysfunction of our judiciary system: children snatching, abuse of psychiatry and guardianship, money laundry, corruption and export of the corruption – practised behind a smoke screen of a nice legislation which is permanently violated. And our politicians accomplish an excellent marketing, selling our country worldwide as an almost perfect Constitutional State, and everybody is believing this fairy tale.

You journalists, you know perfectly the reality, but you are shrinking to assume your duties. You are not even contesting the censorship of the Internet. Your enslaved journalists are censoring themselves because of fear to lose their jobs. Your credibility will collapse. You, the graduated Helvetian censors are the accomplices of corruption.
