***Denunciation of the «Judge» Philippe COLELOUGH and
accomplices for corruption, crimes committed as an organized
gang and abuse of authority***

Dear Mr. HOCHSTRASSER,

This corruption affair is documented in detail on the Internet portal

www.worldcorruption.info/eng/vaudoise.htm

Philippe COLELOUGH, probably the most corrupt Judge of Switzerland caused the ruin of Béchir SEBEI and his family, by acquitting the responsible of his work accident, favouring thus their civil liability insurance – La Vaudoise assurances which saved 1,5 million CHF for civil claims. See [revision request](#) of Béchir SEBEI of the same date). The evaluation of this Judge demonstrates that COLELOUGH has been denounced in other corruption cases:

I denounced the corruption in the canton of Vaud repeatedly:

The mechanisms of control of the system are not working, except for the prosecution of the petty criminality. The white collar criminals enjoy full impunity.

*I advised you by complaint of **February 7, 2018** of the really existing Freemasonic plot in this canton. The affair **GUTKNECHT** is proving it. See as well www.worldcorruption.info/index_htm_files/gu_2017-06-21_ohchr-e.pdf*

Logically, one ought to put the Canton of Vaud under Guardianship. However, the principles of federalism are opposing such a measure. Being federalist as any Swiss, I recognize the reverse of the medal.

We have to escape this vicious circle, where the cheatings are tolerated by the federal authorities in Bern, with the excuse of federalism, because in this case, this is an abuse of right.

Let's get inspired by the History of the Swiss Confederation:

- *In August 1815 the intervention of federal troops set an end to the conflict opposing Nidwalden and Engelberg which was affiliated to the half Canton of Obwalden.*
- *On August 26, 1822 the Federal Diet ordered the total separation of Basle City and Basle Countryside.*
- *Following the unrests in Valais between 1839 and 1844 Federal commissioners imposed the order.*
- *In October 1876 a federal Commissioner imposed to the clericals and the liberals in the canton of Ticino the reconciliation.*

Historic precedents exist thus very well for overcoming federalism, considering the gravity of the situation. The constitutional order has to be re-established and the Vaudois Justiciary to be set back on track. The cited conflicts had resulted in bloodsheds. Today, we are not facing such a scenario. But one has to act without delay. The oppressed victims of corruption in the Canton of Vaud and other Cantons (!) risk to cause violence, e.g. rampage committed by desperate persons following suffered injustices.

Prevention is better than cure.

For the invoked reasons, I request herewith to put the Canton of Vaud under Guardianship of the Swiss Confederation, for allowing to investigate concerning the Vaudois politicians/magistrates rope party, carried out by commissioners of our mother Helvetia.

Sincerely yours

Gerhard Ulrich of Guntalingen
