Are you a Member of a criminal association ?

To you, **Thomas MERKLI**, «Federal Judge»

The wealthy spouses B and R decided in 2010 to divorce consensually. Because of the avarice of the PDC Lawyers hellspawn of the Upper Valais, the procedure dragged on during 6 years and ended for the wife in undeserved poverty. Today, she is living of the social assistance, i.e. from the tax payers.

Below, some of the leading corrupt miscreants of this economic crime are presented. They never contested the insisting accusations of the Lady:

Beat RIEDER
Lawyer
PDC Council of
States

Viola AMHERD
Lawyer
PDC National Councillor
Candidate for the
Federal Council

Philipp Matthias
BREGY, Lawyer
PDC Member of
parliament VS

Michael STEINER
Judge of district

R submitted on June 7, 2018 an appeal at the Supreme Federal Court (*Enclosure 1*). You, Mr. **MERKLI** sent the applicant in the desert by return mail with the ATF 1B_272-2018 of June 13, 2018 (*Enclosure 2*). You wrote, that her appeal was «chatty» and «barely comprehensible». The reader will appreciate! In the subsequent mail exchange with your victim (*Enclosure 3*) you said to have «no competence to deal with "cantonal scam" (...)».

The citizens expect the supreme Judges to search for the truth and to implement a quality control. In the complaint, the following law violations to be pursued ex officio are documented: repeated constraint, threatening, blackmailing, fraud / embezzlement, abuse of authority, alongside with a raw of application offenses. You did not react to denounce the gangsters from the Valais to the competent instance.

You did deliberately not want to understand. Why does a green, protestant Federal Judge cover a local black catholic Mafia?

I am investigating and analyzing the judiciary disfunctioning since 18 years. Today I present my concluding discoveries:

Our politicians are electing Magistrates on whom they can rely, accross all political party borders. In turn, our Judges / Prosecutors let them fiddle around, without disturbing them. When a judiciary victim is calling the politicians for help, they are using the fig leaf of the separation of powers, preventing them allegedly to restore the order. They are thus Brother and Pig.

It must be presumed that 80 % of your applicants know to differentiate good from evil. Since you are brushing away 96 – 97 % of the plaintiffs, this means in reality that your factory is debiting about 80 % waste products. Only the European Court of Human Right, which is overseeing your cartel is doing worse.

You, as well as all other Swiss Federal Judges and Judges of the European Court of Human Rights are Members of a criminal association.

To you, **MERKLI!**
