## ***Our dispute about François LÉGERET***

*To you, Laurent BONNARD,*

*You conducted the presentation of the annual conference of the GRAAP, in the evening of April 1<sup>st</sup>, 2019. About 200 persons were present. It has to be said that one would give you the Good God without confession. No surprise to see your rules of the politiquement correct projected onto the screen in front of us.*

*The presentation of the cantonal «Judge» [Marc PELLET](#) did appeal to me particularly. He spoke about the delicate task of the Magistrates to search always the best solution, for applying the minimum of coercion. I gathered the opportunity to intervene in the discussion:*

*«François LÉGERET was condemned to life imprisonment without evidences nor avoal, on the basis of a scenario, invalidated by 3 witnesses. He is in jail since 13 years and 3 months. I had the honor to make his acquaintance, because the Vaudois Judges sentenced me to 4 years in prison for having criticized them. I assure you that François LÉGERET is a very sensitive man of great value... »*

*You interrupted me and I calmed you down: «Be sure, I will respect your rules of good behaviour. I understand that this meeting shall not be used to settle his own accounts. Anyway, I use to say that I have no problem with Justice, but that Justice has a problem with me. And Justice has a very, very big problem with François*

LÉGERET. *New interruption. I just managed to advance my questions: «Mister PELLET, if it had to be redone, would you condemn François LÉGERET again? Are you looking in his favour for your famous best solution?» Shy clapping. At that point, my right of speech was exhausted. PELLET: «Mister ULRICH, you know exactly that I will not answer your questions». My reply: «No answer is as well an answer.»*

*Laurent BONNANT, you were in a hurry to point out that the audience had not the right to come back once more on the affair LÉGERET.*

*After the closing of the conference, I approached [Marc PELLET](#), the first «Judge» to have condemned François LÉGERET lifelong in 2008. ULRICH: «There are these 3 witnesses who are invalidating your scenario which served you for this sentence.» PELLET: «I will not answer.» *There, you took me aside. I thanked you for having respected the right of freedom of expression. Outbursting, you replied that my intervention was totally inadmissible. Me: «You are one of these do-gooders. Do you know the affair LÉGERET?» You: «One of my journalist friends wrote a book on this subject.» My question: «Do you mean Jacques SECRETAN ?» Your behaviour told me that this was not applying. I suppose that you are relying on the pamphlet written by Michel BORY, the journalist in the service of the Attorney General [Eric COTTIER](#).**

*Loosing containance, and forgetting your own rules of politness, you insulted me with all kind of birds names. I countered to be proud of what I was doing. In a fit of rage you shouted: «**You came her to deliver your ukases of shit**». You certainly remember that I was very amused about your scatological verbal attack.*

*I terminated the evening in company of persons who were curious to question me and to share my knowledge about the irredeemably degenerated judiciary system.*

*Howevert, the injustice inflicted to François LÉGERET is going on. His ennemis are having fun with his inheritance of between 30 and 40 mio CHF, split up among scavengers. **One must know that we are faced with a case of corruption, to the advantage of the Vaudois politico-judiciary plotters.***

*Keeping a lasting memory of our dispute, I present to you my civilities*

*Gerhard ULRICH*
