***Denunciation for ill-treatment of a Jenisch mother and her child
by the raciste Magistrates of the Canton of Fribourg/Switzerland***

To you, Fabien GASSER,

The Swiss Jenisch suffered of racial prosecution over generations: abusive psychiatric detention, forced sterilisation, child abduction etc. Said Jenisch mother (36 years old) is issued of such a family. She has a University degree, is teacher of secondary school and medical secretary. Fostering her child alone, she is forced to face since 4 years a judiciary harassment. Invoking alleged «family psychiatric history», the «Prosecutor» Yvonne GENDRE attempted to send her to a complacency psychiatrist with the aim to have her interned:

Relying on these discriminatory decisions, the «Judge of Peace» Delphine QUÉLOZ tried to abduct the child from the mother in April 2017:

Advised by the victim protection authorities, to avoid to get localized, the mother is constrained to shelter the child since 2 years.

Since the Magistrature of Fribourg has triggered off a real hunt down, the affaire escalated 3 times up to the European Court of Human Rights. As Strasbourg has the fatal pattern, the well motivated complaints were buried without any justification (irredeemably degenerated system). The Magistrates of Fribourg do thus have no restriction to continue this dreadful mobbing.

Nevertheless, this mother succeeded without being assisted by a Lawyer to challenge the following Magistrates of Fribourg by the Federal Court:

- *The «Prosecutor» Yvonne GENDRE by ATF 1B_96/2017 of 17.03.17; in spite of being challenged, her decisions remain valid. She continues to deal with the file, implementing her threats.*

- *The cantonal «Judges» Michel FAVRE and Catherine OVERNEY by ATF 2B_440/2018 of March 8, 2018*
- *Hubert BUGNON, Jérôme DELABAYS and Sandra WOLHAUSER by ATF 1B_351/2018 of September 25, 2018*

The Einsteins of the Federal Court have thus identified the racist plot of the Magistrates of Fribourg, without drawing however the necessary conclusion: to end this raciste prosecution by the Freiburgers. The harassed mother requests for good reasons to have the affair treated by extra-cantonal Magistrates.

Applying the accusatory inversion, QUÉLOZ filed a penal complaint against me for alleged offense of honor. You reacted by your non entry order of May 24, 2018, since the complaint was late. However, after an appeal by the litigious QUELOZ, the cantonal Judges BUGNON, DELABAYS and WOLHAUSER (challenged in this case, authors of the discrimination!) ordered on July 31st, 2018 the reope-ning of the investigation, bypassing the Law by a waky jurisprudence.

On December 19, 2018 I was heard as an accused. Please find enclosed theses minutes duly signed. The invoked elements are establishing unequivocally the ill-treatment imposed by the mentioned Magistrates at the costs of the Jenisch mother and her child.

Investigate finally against the real offenders, instead of wanting me to be condemned for having said the truth.

No Magistrate of Fribourg has the necessary neutrality to deal with this denunciation directed against your colleagues and / or the complaint of your sister Delphine QUELOZ against the undersigned (conflict of interest). You, Fabien GASSER, you are in addition challenged for not having replied to my transparency request of March 23rd, 2019 (membership of secrete societies).

With my compliments

Gerhard ULRICH

Do you have something to add?

(Recorded dictation) The Jenisch are a tiny Swiss ethnic group. Our authorities organized their Genocide in the XXth century. It is to say: child abduction, sterilization of the women, psychiatric internment. They are thus not a sect, as the Prosecutors' Office of Fribourg has desinformed the policemen who were sent in April 2017 to the Vaudois Broye for saving allegedly an ill-treated baby by an alleged sect.

Here, we speak about a 36 year old Jenisch mother and her baby, presently 3 years and 7 months old. The mother is a school teacher with a University degree. The University professor François RUEGG who had supervised her Master exam has established on June 29 2016 an excellent appraisal concerning her.

Her baby was born on May 20, 2015. I have seen at least 5 certificates written by the treating physician for the period beginning with the birth until September 21, 2018. All these certificates confirm the outstanding capacity of this mother to take care of her child.

The father is a gynecologist obsessed with sex. If I am not mistaken, he has admitted by e-mail dated August 16, 2013 to have infected his partner with the papilloma Virus HPV. A medical attestation of October 20, 2016 says that he has infected as well the baby. Since this disease is transmitted in principle sexually, this is a likely evidence of incestuous touches by the father. The father has left Switzerland just after the birth. He does not pay any pensions. Denounced by the mother, he was interrogated on October 29, 2015 by the criminal police of Fribourg. He used abusive denouncing according to which his former partner had a psychiatric history in her family. This was particularly odious, since he had been welcomed in the family and he knew perfectly that these accusations were wrong. The grandmother and great grandmother had been indeed abusively*

interned in psychiatry. The Swiss Confederation has offered the excuses for what they had had to suffer.

One is concluding that the mother is the protecting and the father the destructive parent. However, the mother is criminalized, since the Magistrates of Fribourg are practicing the accusatory inversion.

The Prosecutor GENDRE jumped on the opportunity. She mandated her accomplice psychiatrist Rigobert Hervais KAMDEN to issue on May 31st 2017 a complacency expertise, declaring the Jenisch mother to be crazy, recommending her to be internated in psychiatry. On May 27, 2017, the psychiatrist Dr. med. LM. had certified that the same person was in perfect mental health. According to the Constitutional Court of Germany, the certificates issued according to an order of a Magistrate do have equal value as expertises ordered privately. Mrs. GENDRE ignores deliberately the certificate of Dr. M. and is refering just to thatone of KAMDEN who has never seen his prey, whereas Mrs. M. has seen her with her own eyes.

The decision of the Federal Court ATF 1B_96/2017 of June 13, 2017 confirmed the challenge of the Prosecutor GENDRE. The ATF 1B_351/2018 of September 25, 2018 confirmed the challenge of the cantonal Judges of Fribourg Hubert BUGNON, Jérôme DELABAYS and Sandra WOLHAUSEN. The Einsteins of the supreme Court did discover the raciste plot, however without drawing the necessary conclusions : to stop this persecution.

What I did publish on Internet, concerning the role of the Judge of Peace Delphine QUELOZ is but factual.

Because of the historical nightmare the children are sacred for these travelling ethnical group. This Jenisch Mother is a hero. By hiding her baby, as advised by the victim protection authorities, she is protecting her child against the pedocriminal Magistrates of Fribourg. If you will condemn me, that will all be in my honor.

Question to the Attorney General Fabien GASSER: «What do you have do to comment? »

**The Prosecutor GENDRE refused to refer to experts for clearing this point.*
