Complaint against Dr. Tosca Bizzozzero for damage of my physical and mental health

Ladies and Gentlemen,

Since my abusive forced placement in a home in January 2014, I have been followed by this general practitioner, responsible for the three homes in Morges. It should be noted that I am in an exceptionally good state for my age. I am still autonomous, and the medical follow-up has not been very consistent to date. Nevertheless, after having noticed the poor care provided by Mrs Bizzozzero, I was obliged on several occasions to consult specialists outside the EMS, which was criticised by the home management and the Office des curatelles et tutelles in Lausanne. This can be substantiated.

Since the beginning of June 2019, I have constantly asked for the lifting of medical secrecy towards the people I trust, Roxana Volanschi (who takes care of my health very intensively) and Gerhard Ulrich (my volunteer secretary), and I

have insisted in particular in vain to obtain prescriptions for all the medicines prescribed by Dr. Bizzozzero. See enclosures 1 - 6.

In fact, in early June, Ms. Volanschi observed that I was being administered the neuroleptic Haldol, but we did not have black and white evidence, because of Dr. Bizzozzero's refusal to establish transparency.

In August, I consulted Dr. Yann Roux, who was able to access my medical file via the Morges Hospital Intranet. Thus, I obtained evidence that I have been poisoned since an unknown date, without my knowledge with Haldol (enclosure 7). According to www.infomed.ch/100drugs/haloind.html this neuroleptic is administered mainly to treat schizophrenia, and also Tourette's syndrome. Certainly, neuroleptics are approved to improve the quality of life of people with mental illnesses, while knowing that these drugs shorten life expectancy. I am not affected by any of these diseases. Extract from Dr. Yann Roux's medical report of August 20, 2019: "On the anamnesis, I find a charming patient, very awake, who does not describe any cardiological complaint...".

My friends found on the google search engine the site www.rxlist.com/haldol-drug.htm

According to them one is reading «Elderly patients with dementia-related psychosis treated with antipsychotic drugs are at an increased risk of death. »

Dr. Bizzozzero therefore had me administered for an unknown date without my knowledge and against my will a drug that does not treat one of my rare health problems, but that shortens my life. It's assassination by portions.

I hereby request to be heard, accompanied by my two trusted persons, Roxana Volanschi and Gerhard Ulrich, to support the facts.

The investigation will determine which other persons involved will be prosecuted, for example Director A. Jordan from EMS Nelly de Beausobre, the trustee Vanesa Casas and Justice of Peace Véronique Loichat Mira.

Civil claims

In the context of my complaint for unfair management of 30 August 2019, I have already requested another compensation of CHF 20,000 for moral wrongs, due to the continuous ill-treatment I am suffering in order to allow me to be

repatriated to the canton of Zurich. In view of the above, I am increasing my request to CHF 50,000, as damage to physical and mental health is a serious offence. In addition, it goes without saying that I maintain my right to be fully compensated for the disappearance of my movable property, i.e. CHF 85,000 according to the household insurance.

Challenge

The summary and conclusions below regarding my persistent abuse irrefutably demonstrate that I am a victim of the Vaud marsh plot. This complaint is therefore to be handed over to the canton of Zurich, where I am going to seek refuge. The Public Prosecutor's Office of the Canton of Zurich reads me in copy.

Free procedure

Living on the AHV and supplementary benefits (enclosure 8), I am entitled to the free procedure, and I formally request it. If necessary, you will ask the Office des curatelles et tutelles to provide any evidence you may request in addition.

I look forward to your diligence, and remain with best regards

Rita Rosenstiel,

Born on February 19, 1924

The scandal Rita ROSENSTIEL

Résumé

On November 27, 2013, Rita ROSENSTIEL (born on February 19, 1924) was placed under the guardianship of representation and management, and on January 28, 2014 her trustee Jean-Pierre GOETSCHMANN forcibly placed her in a home. He stole and destroyed her property. She was assigned ex officio lawyer Anne-Rebecca BULA. Hoping that Rita's death would solve the problem, the lawyer kept asking for extensions of deadlines. She dragged the criminal and civil proceedings on for three years. On 24.05.17 she assisted the President of the Cantonal Court, Eric KALTENRIEDER, in order to impose on their exhausted and vulnerable victim a settlement against her interests: Withdrawal of her complaints against payment of CHF 20'000 for moral wrongs. See:

www.worldcorruption.info/rosenstiel.htm

The State of Vaud has never apologized. The perpetrators went unpunished. The material damage was not repaired.

On 20.07.17, the State paid her CHF 20,000 for moral wrongs. 6 days later, the trustee siphoned off this account CHF 19,000 to pay, among other things, the lawyer's fees and legal costs!

State officials persist in mistreating this elder Lady. By an occult procedure, Rita has just been placed under a general guardianship, to muzzle her. Her signature is no longer worth anything. She is deprived of her rights as a citizen and no longer even has the right to choose her doctors.

Once again, one forced upon her an ex officio lawyer, Christine RAPTIS, an accomplice of the system. On June 27, 2019, this lawyer filed a complaint on behalf of Rita ROSENSTIEL, without informing her, against her friends Roxana VOLANSCHI and Gerhard ULRICH for alleged violence, threats or harassment, requesting in addition to prohibit contacts with Rita ROSENSTIEL. Dr. Tosca BIZZAZZERO of the Morges homes, who neglects her patient's health care, the director, André JORDAN, of the EMS Nelly de Beausobre, and obviously the « judge » of peace Véronique LOICHAT MIRA (responsible for the disaster) are the accomplices of RAPTIS.

Conclusions

The Rita ROSENSTIEL scandal is not a « error of justice », because errors can be mended. Despite the seriousness of the crime, the Vaudois authorities have never repaired the material damage nor punished the perpetrators. We are

dealing with premeditated abuses by state officials. It's a conspiracy. Proof: the serial denials of justice in this case. Among the accomplices are the President of the Cantonal Court, Eric KALTENRIEDER and the Prosecutor General, Eric COTTIER, supported by the Office des curatelles et tutelles and the management of the EMS Nelty de Beausobre, including his general practitioner Tosca BIZZZOZZERO. They are covered by the politicians who elected these corrupt officials. This is one case, among many others, that demonstrates how seniors are « managed » as objects in the canton of Vaud.

The Vaudois deputies support this crime. Proof: the classification of the petition in favour of Rita ROSENSTIEL of February 12, 2019.

The former State Councillor, Pierre-Yves MAILLARD, was found guilty of corruption on January 23rd, 2019 by a citizens jury in this case. Rebecca RUIZ succeeded him. She too joined the conspiracy, evading to stop this crime. By letter dated 22 July 19, she presented the stereotypical smoke screen of the alleged separation of powers. It's a dogmatic chimera.

The Legal Committee of the Federal Chambers is also hiding behind the separation of powers in order not to deal with the petition in favour of Rita ROSENSTIEL (their letter of July 12, 2018).

Nicoletta DELLA VALLE, Director of the Federal Office of Police, has dismissed G. ULRICH to the Vaudois authorities - a matter of their competence (sic !).

The GRECO, an organ of the Council of Europe, which is supposed to fight corruption, replied on January 28, 2019 that « the GRECO has no vocation to intervene in individual cases. » Another costly and unnecessary instance.

In fact, no international body enforces human rights: the European Court of Human Rights gets rid of 99% of complaints without reading them, and the UN High Commissioner for Human Rights does not even acknowledge receipt of complaints.

The fourth power - the media - are muzzled. Not only in Switzerland, but all over the world. In the case of Rita ROSENSTIEL, there were quite a few soft reports, but always presented as accidental slippages.

The Rita ROSENSTIEL scandal is a textbook case that proves the very real existence of the planetary plot of the occult powers. It will serve to open the eyes of citizens.
