

Dear loyal Swiss citizens and inhabitants,

Corona yes or no? Let's vote with our feet!

Do you see any bodies in the streets? Do you know of any Corona death victim?

I introduce to you in the person of Rita ROSENSTIEL (96) a corona collateral victim.

After a routine test she was put into quarantine as a corona-contaminated patient without symptoms. 13 days of cruel isolation! Dull!

We're looking as of today at about 220,000 corona deaths worldwide. In comparison: every year, 300,000 to 800,000 people die from flu.

Scientists - including Nobel Prize winners - from all over the world tell us that the pandemic mass hysteria is a hoax. However, they do not get a word in the cartel media and are sometimes censored on the Internet. There is terror of opinion. Research and google yourself, for example, for the personalities listed on the back and your opinions.

Make up your own mind!

Lawyers are destroying our legal system, doctors are destroying our health system, journalists are destroying our society, banksters are destroying the economy, and politicians are destroying our basic rights and freedom. Goal: forced vaccination and earmarking of humanity. We are degraded to pets. And that's that!

*Patriots founded the Swiss Confederation on the Rütli at night and in secret in 1291. Let us remember our historical values! Let us meet unnoticed in small family and friendship circles, not via the Internet or Facebook. Let us debate the question with eye contact: **Is corona a giant fake? Yes or no?***

Let's vote with our feet!

It's easier to fool people than to convince them they've been fooled.
